PREFACE

This computer-produced glossary is a companion volume to the Newspaper and Periodicals Reader used in the Chinese Mandarin Advanced Course.

The glossary was prepared as a project by a class taught by Mr. Albert Fei. Much of the initiative for the project and most of the final preparations were the work of TSGTs Dale F. Lipsett and James S. Peolman, both graduates of DLI class 30CM37W0271.

Glossary Format

This glossary is sorted according to Standard Telegraphic Code group order. In order to use this glossary, it is recommended that either BIAOZHUN DIANMA BEN, People's Postal and Telecommunications Publishing House, BEIJING, 1967 or Volume One of A General and Technical Chinese-English Dictionary, Mc Graw-Hill Book Co., New York, 1963 be used as a reference. While there are other STC books, they are not current enough for use with this listing.

The format in which the glossary is printed is as follows:

```
0001 6670                    04
  (a)      Together          (c)
             (b)
```

(a) Standard Telegraphic Code groups for the Chinese characters.

(b) English equivalent for the Chinese expression.

(c) Selection in which the term is introduced.

In a number of instances, there are repeated entries, for the reason that some terms occur in more than one selection.
